Work Experience/Projects

APR 2023	Project Rose	Project
	Building the official website for the institute's SAC (Student Activity Centre) using Next JS and Tailwind CSS with a team of around 10+ members.	
APR 2023	Medicamp	Project
	A website was designed using React JS and Tailwind CSS to book doctor appointments according to symptoms and track clinic schedules to save users time instead of waiting.	
MAR 2023	Maze Runner	Project
	A mini-puzzle game built using the basics of HTML, CSS and JavaScript.	
MAR 2023	API-store	Project
	Built a website that shows a list of APIs so that you can use the API for a fun project; this project has search functionality and filters. This is built using ReactJs, Tailwind CSS and Publicapis API.	
MAR 2023	Weather App	Project
	Built a weather app with React JS and Tailwind CSS using OpenWeatherMap API.	
JAN 2023	AirBnb Clone	Project
	Cloned Airbnb website using next JS and Tailwind JS.	

Extra Curricular Activities

2022-NOW	Student Mentor	ICS
	Helping juniors bridge the gap between academic and personal life.	
2022-JAN	Technical Team Co-ordinator	Cosmopolitan
	I have been part of the technical team of COSMOPOLITAN, the multi-ethnic fest of the institute, where we build the event website using the MERN stack.	
2022-JAN	Organiser	HackNITR Hackathon
	I have been part of the sponsorship team of HackNITR, the largest student-run Hackathon, where we interact and convince different companies to sponsor our event.	
APR 2022	Content Writer	Nitrusav
	I have been part of the content team of Nitrusav, the cultural fest of my institute, where I drafted sponsorship emails and contributed to arranging as many sponsors as possible.	
MAR 2022	Event Manager	VRIDDHI
	Hosted two events and managed a team of 3 members in the annual sports fest of my institute.
